TAHA SHABBIR

Full Stack Developer | AI Engineer | Agentic AI Specialist

Karachi, Pakistan | tahashabbir321@gmail.com | +92 306 0484798 | Portfolio ↗ | GitHub ↗ | LinkedIn ↗

PROFESSIONAL SUMMARY

Full Stack Developer and AI Engineer with hands-on experience building production-grade web applications, automation workflows, and Agentic AI systems for international clients. Skilled in Next.js, TypeScript, React.js, Node.js and Python, integrating large language models (OpenAI, Gemini, Claude/Anthropic) into real products, including voice AI agents on LiveKit with RAG-based retrieval, call analytics, and reporting. Comfortable across the full stack — database and data management (PostgreSQL, MySQL, MongoDB, SQL), deployment/DevOps-adjacent tooling (Docker, Git/GitHub, Vercel), and modern frontend delivery (Tailwind CSS, Framer Motion). Background also includes team leadership, project coordination, and technical/customer support, having supervised and trained international sales teams before transitioning into software and AI engineering. Strong foundation in Agentic AI development through the GIAIC program.

WORK EXPERIENCE

AI Engineer & Full Stack Developer | *CohandlerAI* | *Manchester, UK (Remote)* **Dec 2025 – May 2026**

Work as an AI Engineer on CohandlerAI, a product-based AI receptionist platform for UK/US dental practices, building and maintaining the AI Dental Receptionist Dashboard.

- Develop voice AI agents using LiveKit with Retrieval-Augmented Generation (RAG) for context-aware, natural conversation handling.
- Support minor ERP-related functionality alongside core AI and dashboard development work.

AI Automation Engineer & Full Stack Developer | *Freelancing* | *Karachi, Pakistan* **May 2024 – Sep 2025**

- Designed and built AI automation workflows and Agentic AI systems, integrating LLMs into production pipelines to streamline business processes.
- Collaborated with cross-functional teams to design and implement Agentic AI features into production systems.
- Optimized application performance and UI/UX using Tailwind CSS and modern frontend best practices.

Web Development Intern | *Artech* | *Karachi, Pakistan* **Jul 2023 – Jan 2024**

- Worked on real-world web development tasks using Next.js and TypeScript, gaining hands-on exposure to production codebases and team workflows.
- Collaborated with senior developers on feature implementation, debugging, and code reviews.
- Contributed minor Android app development work using Android Studio alongside core web development tasks.

Supervisor | *The Informix Private Limited* **Mar 2022 – Jun 2023**

- Led a team of international sales agents, taking full ownership of driving team sales output and meeting targets.
- Transferred sales strategy and best practices to team members and trained new agents to improve performance and product knowledge.

Sales Agent (CSR) | *Hello International* **Jul 2021 – Mar 2022**

- Worked as a sales agent for a USA-based company, engaging and converting customers interested in the company's product.

SELECTED PROJECTS

AI Dental Receptionist Dashboard

Next.js · TypeScript · LiveKit · Python | *2025-2026* | dental-clinic-dashboard-social-test.vercel.app

- Built an AI-powered dental clinic dashboard with voice agent call handling, appointment scheduling, and analytics, using a custom Python LiveKit agent deployed to LiveKit Cloud.

CohandlerAI Marketing Website

Next.js · Tailwind CSS · Framer Motion | 2025-2026 | cohandlerai.com

- Developed a marketing site for an AI receptionist product targeting UK/US dental practices, including an ROI calculator and simplified pricing/contact flow.

MedAI Platform

Next.js · Python · FastAPI · ResNet50 · Deep Learning | 2025-2026 | final-year-project-medai.vercel.app

- Final Year Project — AI-powered medical image analysis web app featuring 7 deep learning models built on ResNet50, covering diseases across multiple specialties. Backend deployed on Railway.

Hospital Management System

ASP.NET Core · MySQL | 2024 | github.com/taha12-ok/Hospital-Management-System-.Net-

- Built a hospital management system to handle core hospital operations and administration.

Comforty

Next.js · Sanity · TypeScript | 2024 | hackathon-03-the-comforty-taha-shabbir.vercel.app

- Full-stack Q-Commerce platform with admin portal.

MS Services

Next.js · TypeScript · AI Chatbot | 2024 | msservicesandtrading.com

- Corporate website for a government contractor with an integrated AI chatbot.

Data Sweeper

Python · Streamlit | 2023 | github.com/taha12-ok/Data-Sweeper-in-Python

- Web app for cleaning, transforming, and exporting tabular data files.

CORE SKILLS

Python • JavaScript • TypeScript • .NET • React • Next.js • Node.js • Express.js
SQL • PostgreSQL • MySQL • MongoDB • Tailwind CSS • Git/GitHub • Docker
OpenAI API • Anthropic API • LiveKit • Clerk • Stripe • Firebase • Supabase • Vercel
ERP • ERP Next

CERTIFICATIONS

- AI Fluency: Framework & Foundations — Anthropic (2026)
- Certified Web Development, Metaverse & AI — GIAIC, Governor House, Governor Sindh Initiative Program (2023 – Present)
- Agentic AI Development — GIAIC, Governor House, Governor Sindh Initiative Program (2023 – Present)
- Web Development Internship Certificate — Artech (2024)
- Google Soft Skills Program — Google, via Pakistan Freelancers Association (PAFLA) (2024)

EDUCATION

Bachelor of Science in Computer Science — **2023 – Present**
Sindh Madrassah Tul Islam University, Karachi

AI, Web3 & Metaverse Program – Governor's Initiative — **2023 – Present**
Governor House, Karachi (GIAIC – Governor Sindh Initiative for AI & Computing)

Intermediate (Pre-Engineering) — **2021 – 2022**
Govt. Degree College Malir Cantt, Karachi

Matriculation (Computer Science) — **2019 – 2020**
Green House Grammar School

LANGUAGES

English: Professional Proficiency • Urdu: Native Speaker
